

**The Faculty of Medicine at Harvard University
Curriculum Vitae**

Date Prepared: June 11th, 2021

Name: Luana Marques, Ph.D.

Office Address: Community Psychiatry Program for Research in Implementation and
Dissemination of Evidence-Based Treatments (PRIDE)
Massachusetts General Hospital
1 Bowdoin Square, 6th Floor
Boston, MA 02114

Work Phone: Office: (617) 726-7913
Mobile: (617) 851-4892

Work E-Mail: lmarques@mgh.harvard.edu

Work Fax: (617) 643-0730

Place of Birth: Governador Valadares, Brazil

Education

2001	B.S. <i>Cum laude</i>	Psychology	State University of New York at Buffalo
2005	M.A.	Clinical Psychology	State University of New York at Buffalo
2007	Ph.D.	Clinical Psychology	State University of New York at Buffalo

Postdoctoral Training

2006-2007	Pre-Doctoral Internship	Psychiatry	Massachusetts General Hospital Harvard Medical School
2007-2009	Post-Doctoral Fellow	Psychiatry	Massachusetts General Hospital Harvard Medical School

Faculty Academic Appointments

2009-2011	Instructor	Psychiatry	Harvard Medical School
2011-2016	Assistant Professor	Psychiatry	Harvard Medical School
2015-	Visiting Professor	Psychology	Universidad de Monterrey, Mexico

*Does not confer
voting privileges*

2017-	Associate Professor	Psychiatry	Harvard Medical School
-------	---------------------	------------	------------------------

Appointments at Hospitals/Affiliate Institutions

2007-2008	Clinical Assistant in Psychology	Psychiatry	Massachusetts General Hospital
-----------	-------------------------------------	------------	--------------------------------

2009-2017	Assistant Psychologist	Psychiatry	Massachusetts General Hospital
-----------	---------------------------	------------	--------------------------------

2017-	Psychologist	Psychiatry	Massachusetts General Hospital
-------	--------------	------------	--------------------------------

Other Professional Positions

2014-2019	Advisory Board Member	Roca, Inc.	1 day per year
-----------	--------------------------	------------	----------------

2011-	Clinical Psychologist	Private Practice	6 hours per week
-------	-----------------------	------------------	------------------

2017-	Consultant	Fenway Health	2 days per year
-------	------------	---------------	-----------------

2020-	Scientific Advisory Board Member	Odin	5 hours per week
-------	-------------------------------------	------	------------------

Major Administrative Leadership Positions

Local

2010-2013	Director, Psychiatry Hispanic Clinical Research Program, Center for Anxiety and Traumatic Stress Disorders		Massachusetts General Hospital
-----------	------------------------------------------------------------------------------------------------------------------	--	--------------------------------

2011-2014	Director, Psychotherapy Research and Training Program, Center for Anxiety and Traumatic Stress Disorders		Massachusetts General Hospital
-----------	----------------------------------------------------------------------------------------------------------------	--	--------------------------------

2014-	Director, Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (Community Psychiatry PRIDE)		Massachusetts General Hospital
-------	------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--------------------------------

2018-2020	Associate Director, Center for Anxiety and Traumatic Stress Disorders and Complicated Grief Program (CATSD)		Massachusetts General Hospital
-----------	-------------------------------------------------------------------------------------------------------------------	--	--------------------------------

2018-2019	Director of Research, Center for Anxiety and Traumatic Stress Disorders and Complicated Grief Program (CATSD)	Massachusetts General Hospital
2018-	Director of Anxiety and PTSD Studies, MGH Clinical Trials Network and Institute (CTNI)	Massachusetts General Hospital
2020	Course Co-Director, Mental Wellness for Health Professionals: COVID-19 Response and Strategies for the Future	Harvard Medical School

National and International

2015-2020	Course Director Cognitive and Behavioral Curriculum Development for Master's Students	Universidad de Monterrey, Mexico
-----------	------------------------------------------------------------------------------------------	----------------------------------

Committee Service

Local

2009-2016	Center for Diversity and Inclusion	Massachusetts General Hospital
	2010-2013	Chair, Patient Demographic Committee
	2010-2013	Chair, Latino Initiative Sub-Committee
	2011-2013	Chair, Community Initiative
2013-	Public and Community Psychiatry Oversight Committee	Massachusetts General Hospital Department of Psychiatry
2013-2014	Departmental Strategic Planning Committee for Psychology	Massachusetts General Hospital Department of Psychiatry
2014-2016	Trauma and Violence Committee	Partners Healthcare
2014-	Psychology Steering Committee	Massachusetts General Hospital Department of Psychiatry
2013-2015, 2017	Internship Selection Committee	Massachusetts General Hospital Department of Psychiatry
2017-	Psychiatry Department Promotions Committee	Massachusetts General Hospital Department of Psychiatry
2018	Adult Clinical Research Steering Committee	Massachusetts General Hospital Department of Psychiatry
2019	Child Resiliency Research Steering Committee	Massachusetts General Hospital Department of Psychiatry

2021	Center of Excellence in Psychosocial and Systemic Research Steering Committee	Massachusetts General Hospital Department of Psychiatry
National		
2018-	Scientific Review Committee	Academy Health, Annual Conference on the Science of Dissemination and Implementation in Health Conference Reviewer
International		
2009-2010	Scientific Program Organizing Committee	World Congress of Behavioral and Cognitive Therapies (WCBCT) Held in Boston, June 2-5, 2010
2016-	Scientific Review Committee	International Society for Traumatic Stress Studies (ISTSS) Conference Reviewer
<u>Professional Societies</u>		
2002-	American Psychological Association (APA)	
2002-	Association for the Advancement of Cognitive and Behavioral Therapies (ABCT)	
2018-		Program Committee, Scientific Reviewer
2008-	Anxiety and Depression Association of America (ADAA)	
2008		Career Development Travel Awardee
2009-		Awards and Scientific Review Committee, Scientific Reviewer
2010-2011		Membership Committee, Diversity Efforts Member, Conference Program Chair
2013		Scientific Program Chair
2014-2017		Annual Conference Committee, Conference Program Coordinator

2016-	Board of Directors, Member
2017-	Professional Education Strategic Planning Committee
2017-	Clinical Fellow
2018-2020	President Elect
2020	President

Grant Review Activities

2013-2016, 2018, 2019	Grant Review Committee	Patient-Centered Outcomes Research Institute (PCORI) Communication and Dissemination
2014-2015	Grant Review Committee	National Institute of Health (NIH) Training Institute for Dissemination and Implementation Research in Health

Report of Funded and Unfunded Projects

Funding Information

Past

2005-2006	Posttraumatic Stress Disorder (PTSD) and Interpersonal Variables Department of Psychology Dissertation Grant PI (\$1000) The goal of this study was to examine the role of social support from interpersonal relationships in buffering PTSD development after a severe motor vehicle accident.
2005-2006	Posttraumatic Stress Disorder (PTSD) and Interpersonal Variables

Mark Diamond Dissertation Research Grant
PI (\$1200)

The goal of this study was to examine the role of social support from interpersonal relationships in buffering PTSD development after a severe motor vehicle accident.

- 2005-2007 Relational Variables and Posttraumatic Stress Disorder (PTSD)
National Institute of Mental Health Minority Dissertation Grant
National Institute of Mental Health (NIMH): R36 MH015383
PI (\$62,875)
The goal of this study was to examine the role of social support from interpersonal relationships in buffering PTSD development after a severe motor vehicle accident.
- 2007-2012 D-Cycloserine (DCS) Enhancement of Exposure in Social Anxiety Disorder (SAD)
NIMH R01 MH075899
PI: Mark H. Pollack, MD
Co-Investigator; Study Therapist
The goal of this study was to assess the efficacy of DCS augmentation of cognitive behavioral therapy (CBT) for the treatment of SAD. My role as a study therapist was to run group CBT sessions for SAD patients.
- 2008-2013 Exposure, D-Cycloserine (DCS) Enhancement, and Genetic Modulators in Panic Disorder
NIMH R01 MH081130
PI: Mark H. Pollack, MD
Co-Investigator; Study Therapist
The goal of this study was to assess the efficacy of DCS augmentation of cognitive behavioral therapy (CBT) for the treatment of Panic Disorder. My role as a study therapist was to conduct individual CBT sessions with Panic Disorder patients.
- 2009-2012 Optimizing Treatment for Complicated Grief
NIMH R01 MH085308-01
PI: Naomi Simon, MD, MSc
Co-Investigator; Study Therapist
The goal of this randomized study was to examine the response to antidepressant medication administered with or without Complicated Grief Therapy, a targeted psychotherapy for bereaved individuals with complicated grief.
- 2010-2012 Randomized Trial of Sertraline, Prolonged Exposure, and their Combination for Posttraumatic Stress Disorder (PTSD) in Operation Enduring Freedom (OEF)/Operation Iraqi Freedom (OIF)
Department of Defense (DOD): W81XWH-11-1-0073
Site PI: Naomi Simon, MD, MSc

Co-Investigator; Study Therapist

The goal of this four-site randomized study -was to examine the comparative efficacy of Prolonged Exposure Therapy (PE), sertraline pharmacotherapy, and the combination of PE and sertraline for the treatment of combat-related PTSD in OEF/OIF veterans.

- 2010-2011 D-Cycloserine Enhancement of Exposure in Social Phobia
NIMH R01 MH075899-03S2 PI of the Supplement (\$137,985)
NIMH R01 MH075899; PI of original grant: Mark H. Pollack, MD
The goal of the supplement was to examine ethnic issues in Social Phobia in order to develop ethnic sensitive interventions for Hispanics diagnosed with Social Phobia.
- 2011-2015 Creating a Teaching Program for Evidence-Based Therapy for Posttraumatic Stress Disorder (PTSD) in Community Mental Health: Bridging the Science-Practice Gap
Multicultural Affairs Office/Executive Committee on Research (ECOR) Massachusetts General Hospital
PI (\$120,000)
The core aim of the proposed teaching plan was to bridge the science-practice gap by creating a community participatory teaching program that is designed to teach an empirically-based treatment, namely Cognitive Processing Therapy (CPT), to clinicians who are actively treating patients diagnosed with posttraumatic stress disorder (PTSD) at the MGH-Chelsea Community Mental Health Center (MGH Chelsea).
- 2012-2017 Implementation of Cognitive Processing Therapy for Posttraumatic Stress Disorder (PTSD) in Diverse Communities
NIMH K23 MH096029-01A1
PI (\$928,734)
The aims of this study are to identify and assess the barriers to implementation of evidence-based treatments (EBTs) in community mental health clinics, to initiate and implement a pilot training program of Cognitive Processing Therapy (CPT) for community mental health workers, and to revise the existing CPT manual for community settings.
- 2013- 2015 Predictors of Type of Treatment Received and Duration of Treatment for Adults with Posttraumatic Stress Disorder
NIMH K23 MH096029-01A1
PI (\$928,734)
This study, using data from the Pregnancy Risk Assessment Monitoring System, evaluates Using data from the Partner's Research Patient Data Registry (RPDR), the purpose of this project is to evaluate predictors of types of treatment received and duration of treatment for patients presenting with posttraumatic stress disorder in the Partner's Healthcare System.
- 2014- 2015 Relationship Between Race/Ethnicity and Mental Health in the Nationally-Representative Collaborative Psychiatric Epidemiologic Surveys (CPES)

PI

This study is designed to conduct secondary data analyses. Specifically, the purpose of these analyses, based in the nationally-representative Collaborative Psychiatric Epidemiologic Surveys (CPES), is to elucidate the complex relationships between race/ethnicity and mental health outcomes. Specific projects have focused on the role of race/ethnicity in modifying the association between posttraumatic stress disorder and chronic illnesses, racial/ethnic and socioeconomic predictors of unmet treatment need among adults with posttraumatic stress disorder and the association of residential segregation with mental health among Latinos.

- 2014-2016 Creating a Training Program for First Responders and Service Professionals Working with Veterans with Posttraumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI)
Attorney General's Office
PI: Naomi Simon, MD, MSc
Implementation Consultant
The aim of this teaching project is to work with patient care and rehabilitation service professionals and first responders to improve the identification, care, and referral of returning veterans and military families affected by the invisible wounds of war, including untreated or undertreated posttraumatic stress disorder, depression, substance use disorders, suicidality, and resultant impairments in relationships, functioning, social isolation, and quality of life.
- 2014-2018 Implementation of a New Cognitive-Behavioral Program for Young Men at High-Risk for Incarceration.
Laura and John Arnold Foundation
PI (\$880,000)
This project leverages an ongoing community-academic partnership between MGH and Roca, Inc. Roca is a community-based organization that serves young men at high risk of incarceration (Ages 18-24). The aims of the project include the development and iterative pilot testing of a novel Cognitive Behavioral Therapy (CBT) intervention aimed at improving emotion regulation and problem-solving skills. This project also tested a novel delivery strategy that employs non-mental health specialists as providers of CBT through both formal and informal teaching.
- 2016-2018 Transdiagnostic Approaches to Facilitate Sustainable Implementation of Evidence-Based Mental Health Treatment in Safety Net Settings
Evans Center for Implementation and Improvement Sciences
PI (\$8,549)
This project leverages ongoing community-academic partnerships by forming a collaboration between Massachusetts General Hospital, Boston University, and Boston Healthcare for the Homeless (BHCHP). The aims of the project are to identify, assess, and address the organizational social context and the characteristics of patients at BHCHP, to conduct a pilot investigation of the feasibility and

acceptability of an evidence-based mental health treatment (the Unified Protocol), and to identify methods for scaling implementation of appropriate EBTs in safety-net settings.

2017 Development of a Sustainable Training and Consultation Program for CBT at Roca, Inc. Laura and John Arnold Foundation
PI (\$70,656)
This study aims to provide a framework for Roca, Inc. to sustainably train their staff in their novel cognitive-behavioral curriculum for use with their young men participants who are at risk of reincarceration. The study will evaluate knowledge pre- and post-training to determine the effectiveness of the training program and will yield recommendations for sustainability.

2017-2018 Adaptation and Implementation of a Novel Cognitive-Behavioral Program for High-Risk Young Mothers
Laura and Arnold Foundation
PI (\$31,740)
This study uses an innovative cognitive-behavioral program originally designed for use with young men at risk of reincarceration and aims to adapt the program to high-risk young mothers. A working group with participants and staff from the young mother's program at Roca, Inc. will inform the intervention adaptation, which will subsequently be delivered by paraprofessionals.

2019 Engagement Period with Charlestown High School to Introduce Cognitive Behavioral Strategies
Shah Family Foundation
PI (\$252,826.91)
The award supported an engagement period with Charlestown High School (CHS) with the purpose to understand the feasibility of utilizing Cognitive Behavioral Strategies (CBS) as a way to address the social and emotional needs of the staff and students at CHS. In addition, the engagement period aimed to inform an optimal implementation design that would ultimately lead to a full saturation of CBS at CHS such that every individual in the building would be trained in CBS.

Current

2017-2021 Leveraging Routine Clinical Materials and Mobile Technology to Assess CBT Quality
NIMH 1 R01 MH112628-01
PI: Shannon Wiltsey-Stirman, PhD
Site PI (\$194,403)
This grant proposes to investigate optimal strategies to support the sustainment of Evidence-Based Psychotherapies (EBPs) across public-sector mental health care settings by assessing a variety of key implementation outcomes, including patient-level outcomes, as well as the budget impact of the strategies and the mechanisms by which they impact patient outcomes. It will produce reliable data on both long-term fidelity and the types of adaptations made by clinicians under different conditions.

- 2019-2022 Cognitive-Behavioral Strategies (CBS) for Youth Development Organizations: Strengthening Organizational Capacity
 Dalio Foundation, Inc.
 PI (\$1,626,000)
 The project's core objective is to strengthen the capacity of the three Connecticut Opportunity Project partners to deliver their services with excellence by providing the organizations' staff with an evidence-based cognitive-behavioral skills training and coaching program. The training and coaching program will involve an open-source evidence-based curriculum to target emotion dysregulation among disengaged and disconnected youth designed and is designed to be delivered by youth development professionals.
- 2020-2025 Evaluation for Impact: Testing Innovation Implementation Models for the Access to Care Crisis in Mental Health
 MGH Research Scholars Program Award
 PI (\$500,000)
 This grant proposes to increase access to evidence-based treatments (EBTs) for mental health by equipping paraprofessionals to deliver EBTs with fidelity through evidence-based training and coaching and by developing innovative implementation models for scaling-up sustainable EBTs within community organizations.

Projects Submitted for Funding

- Pending; Submitted 10/2020 Increasing Resilience for Spanish Speaking Communities through evidence-based emotional health skills
 Fundacion Mapfre/ Ignacio H. de Larramendi Research Grant
 PI- Direct Cost Requested (\$36336)
 This grant aims to create a Spanish-language version of an existing online CBS course addressing emotional health and building resilience for individuals and communities impacted by COVID-19. Expected review date December 2020.

Training Grants and Mentored Trainee Grants

- 2009 Relationship between Perceived Social Support and Body Dysmorphic Symptom Severity
 Psi Chi Undergraduate Summer Research Grant: Sponsoring Faculty
 Faculty Mentor
 The goal of this study was to examine the differing relationship between social support and body dysmorphic symptom severity for men and women with this disorder.
- 2019-2023 Bridging the Science-Practice Gap by Creating a Community Participatory Teaching Program
 MGH Clinician-Teacher Development Award
 Mentor of Soo Jeong Youn, PhD
 The aim of this proposal is to bridge this science-practice gap by creating a community participatory teaching program that will train teachers working in inner-city high schools to better utilize cognitive behavioral strategies to serve the mental health needs of their students.

Unfunded Projects

Current

- 2017- A Qualitative Investigation of the Need for and Barriers and Facilitators to Implementing Evidence-Based Mental Health Interventions in Monterrey, Mexico
PI
This study aims to investigate the need for evidence-based mental health interventions in Mexico, determine the training needs of local providers, and examine the barriers and facilitators to implementing mental health interventions and training programs in Mexico. In addition, the goal of this study is to build research capacity at the Universidad de Monterrey (UDEM).

Report of Local Teaching and Training

Teaching of Students in Courses

2015	Introduction to Cognitive Behavioral Therapy Masters-level Students	Universidad de Monterrey, Monterrey, Mexico 15 hrs/week for 2 weeks
2016	Evidence-Based Protocols: A Focus on Trauma Masters-level Students	Universidad de Monterrey, Monterrey, Mexico 15 hrs/week for 2 weeks
2018	Evidence-Based Protocols Across Anxiety Disorders Masters-level Students	Universidad de Monterrey, Monterrey, Mexico 15 hrs/week for 2 weeks

Formal Teaching of Residents, Clinical Fellows, and Research Fellows (post-docs)

2007-2009	Multicultural Seminar; Lectures on Multicultural Psychology Topics 4-8 Clinical Psychology interns	Massachusetts General Hospital 4-6 hours/year
2008-2009	Cognitive Behavioral Therapy for Tourette Syndrome (TS); Lectures on CBT for TS 2 Clinical Psychology interns	Massachusetts General Hospital 4-6 hours/year
2008-2013	Cognitive Behavioral Therapy for Individuals with Panic Disorder 4-8 Clinical Psychology interns	Massachusetts General Hospital 1 hour/year

2008-2015	Cognitive Behavioral Therapy for Individuals with Posttraumatic Stress Disorder 4-8 Clinical Psychology interns	Massachusetts General Hospital 1 hour/year
2013-2015	Developed Cognitive Behavioral Therapy (CBT) curriculum for trainees on basics of CBT and CBT for specific disorders including PTSD, Generalized Anxiety Disorder, Depression, Social Phobia, etc. 4 Social Work interns, 2 Clinical Psychology practicum students	MGH Chelsea HealthCare Center Massachusetts General Hospital 60 hours/year
2014-2015	Cognitive Processing Therapy (CPT) for Individuals with Posttraumatic Stress Disorder Trainer of 1 Clinical Fellow, 4 Clinical Psychology interns, 3 Social Work interns	MGH Chelsea HealthCare Center Massachusetts General Hospital 26 hours/year
2014-2015	Cognitive Processing Therapy (CPT) for Posttraumatic Stress Disorder Clinical Supervisor of clinical psychology practicum students and social work interns using CPT	MGH Chelsea HealthCare Center Massachusetts General Hospital 75 hours/year
2014-2015	Developed a year-long cognitive behavioral therapy (CBT) for social work interns and clinical psychology practicum students at MGH Chelsea Clinical Supervisor of clinical psychology practicum students and social work interns	MGH Chelsea HealthCare Center Massachusetts General Hospital 25 hours/year
2014-	Established a new course for psychiatry residents focused on trauma in community settings (PGY 2 – 4)	Department of Psychiatry Massachusetts General Hospital 3 hour/year

Clinical Supervisory and Training Responsibilities

2009-2019	Cognitive Behavioral Program Clinical Supervisor	Massachusetts General Hospital 3 hours/week
2013-2017	Cognitive Processing Therapy for Posttraumatic Stress Disorder Clinical Consultant Community Mental Health Workers	MGH Chelsea HealthCare Center 10 hours/week
2014-2017	Evidence-based Interventions for Treating Complicated Grief, Social Phobia, and Panic Disorder Clinical Trainer	MGH Chelsea HealthCare Center 1 hour/week

2014-	Clinical Supervisor Post-Doctoral Fellows	Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (PRIDE) Department of Psychiatry Massachusetts General Hospital 6 hours/week
-------	----------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Research Supervisory and Training Responsibilities

2014-	Research Supervisor Post-Doctoral Fellows	Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (PRIDE) Department of Psychiatry Massachusetts General Hospital 6 hours/week
-------	----------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2015-2016	Research Supervisor Biostatistician	Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (PRIDE) Department of Psychiatry Massachusetts General Hospital 1 hour/week
-----------	----------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Mentored Trainees and Faculty

2007-2009	Angela Fang, PhD / Assistant Professor, Harvard Medical School; Assistant in Psychology, Massachusetts General Hospital Career stage: research coordinator at the OCD and Related Disorders Clinic, MGH. Mentoring role: clinical and research advisor. Accomplishments: authorship on three published manuscripts.
-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2008-2010	Hilary Weingarden, PhD/ Staff Psychologist in the OCD and Related Disorders Program, Massachusetts General Hospital Career stage: undergraduate psychology intern at MGH. Mentoring role: clinical and research advisor, primary mentor for undergraduate thesis, consultant for F31 grant (1F31MH100845-01A1). Accomplishments: co-author of six manuscripts.
-----------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2009-	Nicole LeBlanc, PhD / Clinical Fellow in Psychiatry, MGH/HMS Career stage: undergraduate psychology student at Tufts University, doctoral student at Harvard University, clinical psychology internship. Mentoring role: thesis advisor, clinical and research advisor. Accomplishments: co-author of twelve manuscripts.
-------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- 2009-2015, 2019- Donald J. Robinaugh, PhD / Assistant Professor in the Department of Psychiatry, MGH/HMS
Career stage: clinical psychology practicum student, early career development. Mentoring role: clinical and research advisor. Accomplishments: authorship on nine manuscripts.
- 2010-2011 Meghan E. Keough, PhD / Clinical Instructor, Department of Psychiatry and Behavioral Sciences, University of Washington School of Medicine
Career stage: clinical psychology fellow at the Center for Anxiety and Traumatic Stress Disorders, MGH/HMS. Mentoring role: clinical mentor.
- 2010-2013 Steffany Fredman, PhD / Assistant Professor at The Pennsylvania State University
Career stage: early career development at the Center for Anxiety and Traumatic Stress Disorders at MGH. Mentoring role: clinical supervisor, career development mentor. Accomplishments: authorship on one manuscript.
- 2011-2012 Kristen K. Ellard, PhD / Clinical Fellow in Psychology (Psychiatry), Massachusetts General Hospital/Harvard Medical School
Career stage: clinical psychology fellow at the Center for Anxiety and Traumatic Stress Disorders, MGH/HMS. Mentoring role: clinical mentor.
- 2012- 2015 Louise Dixon, MA / Graduate Student (PhD), University of California, Los Angeles
Career stage: undergraduate psychology intern, research coordinator a Community Psychiatry PRIDE, MGH. Mentoring role: research mentor, mentor for graduate school applications. Accomplishments: co-author of six publications.
- 2013-2014 Lauren Hallion, PhD / Assistant Professor, Department of Psychology, University of Pittsburg
Career stage: practicum student at the Center for Anxiety and Traumatic Stress Disorders, MGH/HMS. Mentoring role: clinical mentor.
- 2013-2014 Peter Marcus, PsyD / Instructor, Harvard Medical School; Staff Psychologist, Massachusetts General Hospital
Career stage: postdoctoral fellow, MGH Chelsea HealthCare Center. Mentoring role: clinical and research advisor.
- 2013-2014 Alex Keuroghlian, MD / Assistant Professor of Psychiatry, Harvard Medical School
Career stage: psychiatry resident at MGH Chelsea HealthCare Center. Mentoring role: clinical and research advisor.
- 2014 Manisha Salinas, Dr.P.H. / Lecturer in Sociology, Sonoma State University
Career stage: volunteer research assistant at Community Psychiatry PRIDE, MGH. Mentoring role: research advisor. Accomplishments: co-author of one publication.
- 2014-2015 Christy Denckla, PhD / Postdoctoral Fellow, Harvard T.H. Chan School of Public Health
Career stage: postdoctoral fellow at the Department of Psychiatry, MGH/HMS. Mentoring role: clinical and research advisor.

- 2014- 2016 Andrea Spencer, MD / Instructor of Medicine, Boston University School of Medicine
Career stage: Louis V. Gerstner III Research Scholar at MGH Chelsea Healthcare Center.
Mentoring role: research advisor.
- 2014-2017 Sarah Valentine, PhD / Assistant Professor in Psychiatry, Boston University School of Medicine
Career stage: postdoctoral fellow at Community Psychiatry PRIDE, MGH/HMS/MGH Chelsea HealthCare Center. Mentoring role: clinical and research advisor.
Accomplishments: co-author of twelve manuscripts.
- 2015-2016 Monica Gerber, MPH / Statistical Research Associate, Fred Hutch
Career stage: biostatistician at Community Psychiatry PRIDE, MGH. Mentoring role: research mentor. Accomplishments: co-author of six manuscripts.
- 2015-2016 Carrie Nobles, PhD / Doctoral Fellow, Eunice Kennedy Shriver National Institute of Child Health and Human Development
Career stage: postdoctoral fellow at Community Psychiatry PRIDE, MGH/HMS.
Mentoring role: research advisor. Accomplishments: co-author of seven manuscripts.
- 2016-2018 Emily Ahles, BA / Graduate Student (PsyD), University of Indianapolis
Career stage: clinical research coordinator at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor, mentor for graduate school applications.
Accomplishments: co-author of four publications.
- 2016-2018 Allyson Blackburn, BA / Graduate Student (PhD), University of Illinois at Urbana-Champaign
Career stage: undergraduate research intern at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor, thesis advisor. Accomplishments: completion of honors thesis, Tufts University.
- 2016-2017 Kyle Yuan, BA / Graduate Student (PsyD), Yeshiva University
Career stage: undergraduate research intern at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor.
- 2016-2018 Marina Rakhilin, BA / Clinical Research Coordinator, Dauten Family Center for Bipolar Treatment and Innovation at Massachusetts General Hospital
Career stage: undergraduate research intern at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor.
- 2017-2018 Claudia Robles-Gil, BA / Undergraduate Research Assistant, Community Psychiatry PRIDE at Massachusetts General Hospital
Career stage: undergraduate research intern at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor, thesis advisor. Accomplishments: completion of honors thesis, Tufts University.
- 2017- Soo Jeong Youn, PhD / Instructor, Massachusetts General Hospital/Harvard Medical School

- Career stage: postdoctoral fellow, early career faculty at Community Psychiatry PRIDE, MGH/HMS. Mentoring role: clinical and research advisor. Accomplishments: co-author of four manuscripts, co-editor of one journal guest issue.
- 2017-2018 Haley Carroll, PhD / Independent Licensed Clinical Psychologist
Career stage: clinical psychology intern at MGH/HMS. Mentoring role: research advisor.
- 2017-2019 Yesenia Aguilar Silvan, BA / Graduate Student (PhD), University of California, Los Angeles
Career stage: clinical research coordinator at Community Psychiatry PRIDE, MGH.
Mentoring role: research advisor, mentor for graduate school applications.
Accomplishments: co-author of seven publications.
- 2018 Meghana Nallajerla, BA / Undergraduate Fellowship Recipient, Active Minds' Emerging Scholars Fellowship Program
Career Stage: Emerging Scholars fellow. Mentoring role: National Program Mentor.
- 2018- Alisha Pollastri, PhD / Director of Research and Evaluation at Think:Kids, MGH/HMS
Career stage: professional development for directorial position at Think-Kids. Mentoring role: research advisor and collaborator
- 2018- Amanda Baker, PhD / Staff Psychologist, Center for Anxiety and Traumatic Stress Disorders (CATSD)
Career stage: staff psychologist at the CATSD, MGH/HMS. Mentoring role: clinical and research advisor. Accomplishments: co-author of one manuscript.
- 2018- Eric Bui, MD, PhD / Staff Psychiatrist, Center for Anxiety and Traumatic Stress Disorders (CATSD)
Career stage: staff psychiatrist at CATSD, MGH/HMS. Mentoring role: clinical and research advisor. Accomplishments: co-author of five manuscripts.
- 2018- Jonah Cohen, PhD / Staff Psychologist, Center for Anxiety and Traumatic Stress Disorders (CATSD)
Career stage: staff psychologist at CATSD, MGH/HMS. Mentoring role: clinical and research advisor.
- 2018-2019 Ryan J. Jacoby, PhD / Instructor in Psychology, Department of Psychiatry at MGH
Career stage: clinical psychology intern in the Cognitive Behavioral Track at MGH.
- 2018-2019 Shelley Kind / Graduate Student (PhD), Suffolk University
Career stage: practicum student at Center for Anxiety and Traumatic Stress Disorders, MGH/HMS. Mentoring role: clinical mentor.
- 2019- Kimberlye Dean, PhD / Clinical Research Fellow, Community Psychiatry PRIDE at MGH/HMS
Career stage: postdoctoral fellow. Mentoring role: clinical and research advisor.
Accomplishments: co-author of one publication.

Anxiety and Depression Association of America Annual Conference
Philadelphia, PA

- 2016 Going Off-Script: Modifications to Cognitive Processing Therapy (CPT) in a
Community Health Clinic / Symposium Speaker
The 9th Annual Conference on the Science of Dissemination and Implementation;
Washington DC
- 2017 Clinician Modifications to Evidence-Based Treatments: The “How, Why, and What’s
Next?” of Changes to Treatment Protocols / Symposium Speaker
Anxiety and Depression Association of America Annual Conference
San Francisco, CA
- 2018 Dissemination of Evidence-Based Treatments: Transporting U.S. Cultural Adaptations
Globally / Discussant
Anxiety and Depression Association of America Annual Conference
Washington, DC
- 2019 Implementation Science: Translating Science to Practice Across Diverse Settings /
Discussant
Anxiety and Depression Association of America Annual Conference
Chicago, IL
- 2019 Innovative Mental Health Treatment Engagement Initiatives for Minority Families /
Discussant
Anxiety and Depression Association of America Annual Conference
Chicago, IL
- 2020 Worry and Anxiety in Youth (CME Event) / Moderator
Anxiety and Depression Association of America Fall Forum
Virtual
- 2020 Leveraging Implementation Science and Community-Based Partnerships to Bridge the
Science-Practice Gap Among Diverse Populations / Invited Address
Association for Behavioral and Cognitive Therapies 54th Annual Meeting
Virtual
- 2020 Contextual challenges in conditions of ongoing stress and adversity: a mixed-methods
exploration of culturally relevant assessment and treatment approaches in low- and
middle-income countries / Symposium Speaker
Association for Behavioral and Cognitive Therapies 54th Annual Meeting
Virtual
- 2021 Embodying Resilience from Research to Practice/ Welcome Remarks
Anxiety and Depression Association of America Annual Conference
Virtual

International

- 2010 Cultural Variations in Social Anxiety and Taijin Kyofusho / Symposium Speaker
World Congress of Behavioral and Cognitive Therapies

Boston MA

- 2013 Barriers and Facilitators to the Implementation of Cognitive Processing Therapy (CPT) in Community Mental Health Centers: Providers' Perspectives / Symposium Speaker
International Society for Traumatic Stress Studies Annual Conference
Philadelphia, PA
- 2014 Cognitive Behavioral Therapy Basics Series / Invited Presentation
Hadi Hospital
Kuwait City, Kuwait
- 2015 Cognitive Behavioral Therapy for Anxiety Disorders: Efficacy, Effectiveness /
Invited Presentation
Universidad de Monterrey
Monterrey, Mexico
- 2019 Bridging the Gap: Using Implementation Framework to Achieve Successful
Community Based Participatory Research / Invited Presentation
University of Grenada
Grenada, Spain
- 2020 Using Evidence Based Practices to Address PTSD Among Diverse Communities:
Barriers, Opportunities and Innovations in Addressing Cultural Adaptation of PTSD
Treatments / Panelist
International Society for Traumatic Stress Studies 36th Annual Meeting
Virtual

Report of Clinical Activities and Innovations

Current Licensure and Certification

- 2009- Massachusetts Psychologist
- 2009- Health Services Provider; Massachusetts
- 2015- New York State Psychologist

Practice Activities

- 2007- Psychiatry Outpatient Clinic 3 hours per week
MGH Psychiatry
Associates

Clinical Innovations

- 2013- The manual for Cognitive Processing Therapy (CPT) is cumbersome and contains high-level academic language. Given the barriers to implementation often present in

community health clinics, the CPT manual is difficult to use in practice. I worked alongside the health workers at MGH Chelsea HealthCare Center to create a community-friendly CPT manual that could be implemented in a wide-range of clinical settings.

- 2013- The creators of Cognitive Processing Therapy (CPT) published a manual for Spanish-speaking clients. However, it was translated by Spanish academics who use high-level academic language. Additionally, the manual was not culturally appropriate. I worked to revise this manual to a community Spanish version that uses easy-to-understand language and considers Latino culture.
- 2014- There are significant challenges to implementing existing Cognitive Behavioral Therapy (CBT) interventions for high-risk young men in a community setting. Engaging and retaining high risk young men in behavioral health programming, due to stigma and reluctance to seek help, are most daunting. Accordingly, I developed an innovative CBT program explicitly in response to known implementation barriers and was developed iteratively using community-based participatory research strategies to ensure the fit of the program to the population and community setting. This CBT program is now a core part of the community partner’s programming and has reached hundreds of high-risk young men and young mothers.
- 2020- Access to traditional Cognitive Behavioral Therapy (CBT) is currently very limited and does not demonstrate effectiveness for all adult and youth populations, suggesting the need for adaptation. To address this, I developed a transdiagnostic CBT skills curriculum entitled “The TEB Skills: Empower Youth and Build Resilient Communities through Skills that Impact Thoughts, Emotions, and Behaviors.” The skills of the curriculum were developed to be delivered non-licensed professionals in non-clinical settings including schools, workplaces, community centers, and camps. The curriculum is currently being used to train youth development professionals to deliver the TEB skills to high-risk youth in Connecticut. The TEB Skills have the opportunity to drastically increase access to evidence-based skills across the country and internationally.

Report of Education of Patients and Service to the Community

No activities below were sponsored by outside entities

Activities

- 2002-2006 Buffalo General Hospital / Obsessive Compulsive Disorder (OCD) Support Group Co-Leader
Co-Leader of group designed to educate family members of patients with OCD.
- 2009 McLean Hospital/ Invited speaker

Spoke to families and patients with Body Dysmorphic Disorder (BDD) about adapting Cognitive Behavioral Therapy (CBT) for ethnic minorities with BDD

- 2011 North Suffolk Mental Health Association/ Psychoeducation Group Leader
Group leader for providers and patients on psychoeducation of PTSD and other trauma-related disorders
- 2013 MGH Chelsea HealthCare Center/ Trauma Psychoeducation Group Leader
Group leader for patients who have experienced or witnessed a traumatic event
- 2016 Massachusetts Attorney General's Office/ Invited Presenter
Led presentation to MA Attorney General on the dissemination of evidence-based treatments to community providers as part of MGH group presentation on community health
- 2019 Children's Behavioral Health Advisory Council, MA Department of Mental Health / Invited Presenter
Gave presentation on leveraging the promise of community health workers to expand the behavioral health workforce
- 2020 Educate Girls / Invited Presenter
Presented "An Innovative Training Institute for Increasing Access" to staff at a non-profit in India
- 2020 Corporate Health and Wellness Association / Invited Speaker
Presented "Working Through Anxiety: Science-Driven Skills for Navigating COVID-19 Stress" to an international non-profit; Virtual
- 2020 Orbia / Invited Workshop Speaker
Presented "Managing Anxiety and Building Resilience in the Age of COVID-19" to an international multi-industry company; Virtual
- 2020 Chelsea Emergency Response Teams / Invited Presenter
Presented "It's Okay to Not Be Okay" to help frontline responders learn strategies manage the emotional toll of the COVID-19 pandemic; Virtual
- 2020 Connecticut Opportunity Project Partners / Invited Presenter
Presented "Science-Driven Skills for Navigating Turbulent Times" to staff at organizations serving disengaged and disconnected youth; Virtual
- 2020 Commonwealth Seminar / Invited Presenter
Presented "Mental Health in Underserved Communities: It's Okay to Not Be Okay" to the general public in Massachusetts; Virtual
- 2020 Nature Careers / Invited Presenter
Presented "Mental health during the pandemic" during a webcast on mental health; Virtual
- 2020 Moody's Corporation/ Invited Presenter

- Presented “The COVID-19 Marathon: Brain Strategies for Running Your Race” for international employees of an international business and financial services company; Virtual
- 2020 Moody’s Corporation/ Invited Presenter
Presented “The COVID-19 Marathon: Brain Strategies for Running Your Race” for Asian/ Pacific employees of an international business and financial services company; Virtual
- 2020 Moody’s Corporation/ Invited Presenter
Presented “Fostering Wellbeing with Dr. Luana Marques” for managers of an international business and financial services company; Virtual
- 2021 Spaulding for Children/ Invited Presenter
Discussant on “Understanding Social Media Traps: Empowering Families to Navigate the Virtual World”; Virtual
- 2021 St. Pauls Girls’ School/ Invited Presenter
Presented “Brain Health Strategies to Support Wellbeing During the COVID-19 Pandemic” to school community; Virtual
- 2021 Focus Financial Partners/ Invited Presenter
Presented “Running the Covid-19 Marathon: Tools for Recognizing and Managing Stress” to clients of Focus Financial; Virtual

Narrative

I am the Director of the Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (PRIDE) at Massachusetts General Hospital (MGH) and Associate Professor of Psychiatry at Harvard Medical School. Established in 2013, Community Psychiatry PRIDE is a clinical research program under the division of Community and Public Psychiatry at MGH that focuses on the dissemination and implementation of cutting-edge clinical interventions for mental disorders in racially and ethnically diverse low-income communities. Research conducted at Community Psychiatry PRIDE aims to reduce health disparities by increasing access to treatment and quality of care provided at community-based organizations. In the past several years, we successfully developed and implemented a successful evidence-based social and emotional learning curriculum with Roca, a local non-profit serving high risk youth, and are now expanding with the support of the Dalio foundation. This curriculum is currently being adapted to support the broader community with COVID-19. As Director of PRIDE, I oversee a team of psychologists, psychiatrists, fellows, research assistants, and undergraduate interns who contribute to ongoing community-based clinical research trials.

Area of Excellence: Investigation

I have over 10 years of experience conducting clinical research in health disparities and trauma-related disorders. In recent years, I have gained additional expertise in methodologies for conducting dissemination and implementation research. The origin of this line of inquiry extends back to my doctoral dissertation, which examined interpersonal functioning and relational variables in PTSD in a diverse sample.

After my clinical internship in the CBT track at MGH, I worked at Center for Anxiety and Traumatic Stress Disorders at MGH, where I served as a co-investigator on three NIH-funded studies examining the enhancement of Cognitive-Behavioral Therapy (CBT) in combination with medications for (1) Social Anxiety Disorder (SAD), (2) Panic Disorder, and (3) Complicated Grief. Through my involvement in these studies, I received a NIMH minority supplement to examine the phenomenology and treatment-seeking patterns of Hispanic individuals with SAD.

To integrate my knowledge of clinical research with the growing field of implementation science, I was awarded an NIH training grant to study the implementation of Cognitive Processing Therapy (CPT) for individuals suffering from PTSD in community mental health clinics for diverse patients. This study has yielded a culturally-adapted CPT manual in English and Spanish. In response to the importance of this line of research and my competency as a researcher from an underrepresented group, I transitioned to my own community-based research center (e.g., Community Psychiatry PRIDE), which included institutional support for a postdoctoral fellow.

I have devoted the past five years to expansion of the research portfolio at Community Psychiatry PRIDE and to the research mentorship of junior faculty. I provided intensive mentorship to the submission of a training grant for one of my post-doctoral fellows.

In 2014, I was awarded a significant foundation grant (PI: Marques; Laura and John Arnold Foundation; \$880,000) for an implementation project designed to create a targeted cognitive-behavioral program for diverse young men at high risk for incarceration in collaboration with Roca, Inc.

In 2016, I was awarded a grant as the Co-PI through the Evans Center for Implementation and Improvement Sciences (\$8,549) for a project designed to test an evidence-based treatment for patients at Boston Healthcare for the Homeless in order to create a sustainable model for safety-net settings.

In 2017, I was awarded a grant as a Site PI (PI: Wiltsey-Stirman; National Institute of Mental Health; \$194,403) on a multi-site project designed to investigate optimal strategies to support the sustainment of evidence-based psychotherapies across public-sector mental health care settings by assessing a variety of key implementation outcomes.

I currently serve as the Principal Investigator of a \$1.6 million project funded by the Dalio Philanthropies focused on addressing the significant social emotional needs of disengaged and disconnected youth through evidence-based training and coaching. The project's core objective is to strengthen the capacity of the three Connecticut Opportunity Project partners to deliver their services with excellence by providing the organizations' staff an evidence-based training and coaching program on how to deliver emotion regulation strategies that have been shown to be effective, can be delivered by youth development professionals, and sufficiently address the complex social-emotional needs of the youth they serve.

Much of the background knowledge for Connecticut Opportunities Project developed from my work with Charlestown High School (CHS), a Boston public school with a minority and underprivileged student

body. Between June-July 2019, I hosted an internship program at PRIDE offices to engage students in developing CBT skills. I also provided CBT skill introductions and trainings for local CHS teachers in June and August 2019.

Most recently, I received an MGH Research Scholars Program Award for \$500,000 to evaluate the impact of the training and coaching program for youth development professionals that is supported by the Dalio Philanthropies. The goal of this grant is to expand access to evidence-based treatments by identifying implementation models that can be successfully scaled and sustained within community organizations.

In the wake of the COVID-19 Pandemic, my team and I recognized the unique opportunity to expand the reach of our evidence-based skills for managing anxiety. Since March 2020, I have presented several webinars to the Harvard community and media outlets with topics ranging from self-care in isolation to diversity and disparity. I am currently working to adopt the Dalio curriculum to the broader public. This will be completed and disseminated on an open source platform in August 2020.

Teaching and Education

My teaching concentrates on the implementation of cognitive-behavioral interventions for individuals with anxiety and trauma-related disorders and on the psychology of ethnic minorities. I have delivered grand rounds locally and nationally (2009; 2012; 2015; 2016; 2020), as well as numerous seminars to psychology interns, residents, clinical and research fellows. I have presented at both national and international conferences (e.g., the World Congress of Behavioral and Cognitive Therapy, Association of Behavioral and Cognitive Therapy). In addition, since 2015, I have been a Visiting Professor in Psychology at the Universidad de Monterrey, Mexico.

Significant Supporting Activities

Clinical Expertise

I have served as the expert clinical consultant to medical and mental health providers at community-based clinics who are dually interested in a) using culturally-modified cognitive-behavioral interventions for trauma, and b) addressing mental health disparities among racial and ethnic minority groups.

Education of Patients and Service to the Community

I currently serve as the President of the Anxiety Disorders Association of America (ADAA) and am a scientific reviewer for the Patient Centered Outcomes Research Institute (PCORI). I have also published a self-help book for a lay audience, *Almost Anxious: Is My (or My Loved One's) Distress or Worry a Problem?*, which seeks to educate and reduce stigma around anxiety disorders on a national and global level by providing easy-to-read evidence-based treatment. The exercises and figures from this publication are also available in the public domain at www.luanamarquesphd.com, which is important for the dissemination of evidence-based tools for anxiety management. *Almost Anxious* has been highlighted in local (*Harvard Gazette*, *WBUR*, and *City of Boston.gov*) and national media outlets (*Fox News*, *NBC News*, *Publishers Weekly*, *Right Turn Radio*, *Women's Day*, and *Wisconsin Public Radio*). I have provided numerous interviews to the national and international media (*Face the Nation on CBS*, *CNBC*, *Washington Post*, *The Guardian*, *TV Globo Brazil*, *Fuji Television*) serving as an expert for managing stress and anxiety using evidence-based skills.
